PROFILE

Tushar is a passionate and dedicated BCA graduate with hands-on experience in frontend development through a 3-month internship at iWebwiser. During my internship, I worked on real-time web projects using HTML, CSS, JavaScript, and React.js, gaining practical skills in building responsive and user-friendly interfaces. I'm eager to contribute to innovative development teams, continuously learn new technologies, and grow as a frontend developer in the fast-paced tech world.

SKILLS

- **Web Development :** MERN Stack (MongoDB, Express.js, React, Node.js)
- **3D & Animations:** Three.js, GSAP, Lenis, and other animation libraries
- **Programming Languages:** C, C++, Java, JavaScript
- **Front-end:** HTML, CSS, React.js, Tailwind CSS, Responsive Design
- **Back-end:** Authentication, Database Management (MongoDB)
- **Other Skills:** Problem-Solving, Debugging, Version Control (Git)

EXPERIENCE

Frontend Developer Intern

iWebwiser Pvt. Ltd. | [Bikaner, Rajasthan] | Feb 2025 – May 2025

Worked on real-time web projects using HTML, CSS, JavaScript, and React.js. Built responsive UI components, collaborated with the design team, and gained hands-on experience in API integration and Git.

EDUCATION

Bachelor of Computer Applications (BCA) in Computer Science

Maharaja Ganga Singh University (MGSU) | 2022 - 2025

PROJECTS

🎮 3D Website – YCT Game

Tech Stack: React.js, Tailwind CSS, Lenis

Developed an interactive 3D gaming website for YCT Game using React and Lenis for smooth scrolling effects. Focused on UI design and responsive layout using Tailwind CSS for a modern and immersive user experience.

🛒 E-Commerce Web App with Multi-Dashboard

Tech Stack: React.js, REST API, Third-Party API, Authentication

Built a fully functional e-commerce platform featuring three dashboards (Customer, Vendor, Owner). Implemented user authentication, product management (add/update/delete), and API integrations for dynamic data handling

ACHIEVEMENTS

🏆 Won 1st Place at College Hackathon

Led a team of four as team leader and secured first place at a prestigious college hackathon with an innovative project in the education domain.

🎯 Organized 'Hack The Future' Hackathon

Successfully organized and managed the 'Hack The Future' Hackathon event at B.J.S. Rampuriya College, overseeing event planning, coordination, and execution.
